SUMMARY

Software Engineering student and aspiring Frontend Engineer with hands-on experience building responsive and functional web applications using React, TypeScript, JavaScript, HTML, CSS, and Tailwind CSS. Experienced in turning ideas and designs into interactive web interfaces, with a growing focus on writing clean, maintainable code and building user-focused applications. Currently strengthening frontend engineering skills through personal projects and practical development experience.

EDUCATION

Nnamdi Azikiwe University (UNIZIK) — Awka, Nigeria
B.Sc. Software Engineering | [2023] – [2027]

EXPERIENCE

Visiara Ltd — Software Engineering Intern (SIWES)
Nigeria | [September, 2026] – Present

- Worked on mini projects and assigned development tasks to strengthen practical software engineering skills.
- Built and improved small applications under the guidance of a supervisor.
- Tested applications to identify usability issues, navigation problems, and functional issues.
- Evaluated user flows to ensure applications were intuitive, easy to navigate, and user-friendly.
- Documented and communicated issues discovered during testing and suggested areas for improvement.

PROJECTS

FinTrack — Personal Finance Management Web Application

[Live demo](#) · [GitHub](#)

React · TypeScript · Tailwind CSS · Vite

- Built a responsive personal finance web application for tracking income, expenses, transactions, and spending patterns.
- Developed reusable React components and managed application state using React Context.
- Implemented transaction features including adding, editing, deleting, searching, and filtering transactions.
- Added persistent transaction data using browser local storage.
- Built dashboard and insights views to present financial information in a clear and accessible format.

Dev Blossom Portfolio — Personal Portfolio Website

[Live Demo](#) · [GitHub](#)

React · TypeScript · Tailwind CSS · Vite

- Designed and developed a personal portfolio website to showcase frontend projects and development experience.
- Built reusable components and implemented client-side navigation using React Router.
- Developed responsive layouts and interactive sections for different screen sizes.
- Deployed the website to Vercel and managed the project using Git and GitHub.

ASES Vault — Study & Flashcard Web Application

[Live Demo](#) · [GitHub](#)

JavaScript · React · HTML · CSS

- Built a study-focused web application for creating and reviewing digital flashcards.
- Developed interactive frontend features using React and JavaScript.
- Designed the application to provide a simple and user-friendly experience for studying and navigating through learning content.

- Tested and refined the application to improve usability, navigation, and overall functionality.
- Deployed the application to Vercel for live access.

SKILLS

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

Tools & Workflow: Git, GitHub, Vite, React Router, Vercel

Design & Development: Figma, Responsive Web Design, UI Implementation, Component-Based Development

Other: Software Engineering, Web Accessibility, Application Testing & Usability
